

# Microgreens

## — PRICE LIST —

GroWild Acres was founded by Thomas Chapman and Lyndsey Kowalczyk, who have over 3 years of combined experience in indoor hydroponic farming. Thomas and Lyndsey decided to leave the corporate agriculture world to pursue running their own farm with a mission to provide all natural and nutrient dense produce to local communities.

### Bulk Order Microgreens

We currently grow 8 different varieties, with even more in the trial phase. We sell our microgreens by the ounce, packaged either in a produce bag or a clamshell. Bulk orders require a minimum of 8 ounces total (can be a mix of varieties). All varieties are available year round. Shelf life is 10-14 days. We'll develop a delivery schedule that works for your restaurant. We are also always willing to create new mixes, as well as try new varieties if there is a particular one of interest. Listed below are our current varieties and prices per ounce. Contact us if you have any questions or to place an order!

*Amaranth*..... \$6.00/oz  
A small, brightly colored micro with an earthy flavor similar to swiss chard. The intense color is a beautiful garnish for any dish.

*Radish*..... \$3.00/oz  
Colorful stems and large leaves with a lovely peppery bite, quite reminiscent of a full grown cherry radish.

*Broccoli*..... \$3.00/oz  
A sweet, mild flavored microgreen that also happens to be one of the healthiest varieties. A beautiful addition to any dish!

*Red Cabbage*..... \$3.00/oz  
In the same family as broccoli, red cabbage has a mild and sweet flavor with deep reddish purple colored stems and dark green leaves

*Pea Shoots*..... \$2.00/oz  
Longer than other micros, pea shoots are delicately crisp and sweet. Very similar in taste to a fresh sugar snap pea.

*Salad Mix*..... \$3.00/oz  
A mix of brassica micros; arugula, kale, broccoli, red cabbage, and kohlrabi. A staple micro mix that compliments any dish.

*Pink Swiss Chard*..... \$6.00/oz  
Vibrantly colored, this is an eye catching micro with an earthy flavor that is both sweet and mild.

*Sunflower*..... \$2.00/oz  
Our most robust microgreen with a sweet and nutty flavor. Loved as an addition to many dishes, or even on it's own as a snack.
